December 31, 2024

INVESTMENT OBJECTIVE

The Prowess Diversified Income 27four Fund is a Rand denominated actively managed income fund namely benchmarked against the STeFI Composite Total Return Index. The goal of the Portfolio is to produce excess returns above the benchmark over the long-term while minimising volatility by building a diversified portfolio.

INVESTMENT SUMMARY

Portfolio construction will focus on 1)yield enhancement through identification of, and investment in fixed or floating income securities that offer higher value on a relative basis; 2)seeking credit quality through rigorous research and analysis, and actively managing credit risk through various credit trends; 3)active management of issues, sector, quality and yield curve positions; 4) active utilization of asset allocation across locally listed equities and property, as well as foreign currency denominated fixed income securities & money market assets to achieve optimal diversification. Historic Yield is used and calculated as at 31 December 2024, The fund is Regulation 28 compliant.

TARGET INVESTORS

The fund is suitable for institutional clients with various risk profiles and can be allocated in a retirement fund's investment strategy as a portion of the fixed income allocation in a balanced portfolio.

QUARTERLY PORTFOLIO ANALYSIS

The Portfolio has adhered to its policy objective. There were no changes made to the composition of the portfolio during the period.

**RISK PROFILE****Low - Moderate Risk**

\*Invest in short/medium term investment instruments

\*Fairly liquid structures, no/little penalty for redemption

\*Returns are low, with potential upside based on market conditions

\*Has some potential for capital gains and losses

**Liquidity Risk**

If there are insufficient buyers or sellers of particular investments, the result may lead to delays in trading and being able to make settlements, and/or large fluctuations in value. This may lead to larger financial losses than expected.

**Default Risk**

The risk that the issuers of fixed income instruments (e.g. bonds) may not be able to meet interest payments nor repay the money they have borrowed. The issuers credit quality is vital. The worse the credit quality, the greater the risk of default and therefore investment loss.

**Interest Rate Risk**

The value of fixed income investments (e.g. bonds) tends to be inversely related to interest and inflation rates. Hence their value decreases when interest rates and/or inflation rises.

**GENERAL INFORMATION**

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue.

**REGULATION 28 COMPLIANT**

The Fund is managed to comply with Regulation 28 of the Pension Funds Act. Exposures in excess of the limits will be corrected immediately, except where due to a change in the fair value or Characteristic of an asset, e.g. market value fluctuations, in which case they will be corrected within a reasonable time period.

**PERFORMANCE**

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Income is reinvested on the reinvestment date, full performance calculations are available from the manager on request. Portfolio performance figures are calculated for the portfolio.

**TOTAL EXPENSE RATIO (TER)**

The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year.

**TOTAL INVESTMENT CHARGE**

The sum of the TER and TC is shown as the Total Investment Charge (TIC).

**CUT OFF TIMES**

Please note that all documents, notifications of deposit, investment, redemption and switch applications for the Prowess Diversified Income 27four Fund must be received by 13:00(SA), to be transacted at the net asset value price for that day. Where all required documentation is not received before the stated cut off time Prowess Investment Managers shall not be obliged to transact at the net asset value price as agreed to. Funds are priced at 3pm. Prices are published daily and are available on the 27four website.

**GLOSSARY SUMMARY**

Annualised performance: Annualised performance show longer term performance rescaled to a 1 year period. Annualised performance is the average return per year over the period. Actual annual figures are available to the investor on request.

**HIGHEST & LOWEST RETURN**

Highest & Lowest return: The highest and lowest returns for any 1 year over the period since inception have been shown.

**NAV**

NAV: The net asset value represents the assets of a Fund less its liabilities.
